EX PARTE OR LATE FILED

Dear Senator Kerry:

Please support Low Power broadcast service.

This is an invitation for you to appear on Visual Radio, my popular public access program. The specific topic we will be discussing is community radio.

A good example of LPFM is/was Radio Free Allston. It had a positive impact on the community. The city where I live, Woburn, Mass. needs a station like Radio Free Allston.

As you know, MediaOne inhibits the use of the public access facility (which is located in Stoneham, and isn't even listed in the phone directory), thus, people who need to communicate ideas are truly "blackened out" in this pivotal city, located where Route 128 intersects Route 93.

Thank you for your consideration of this important issue. I have CC'd the FCC regarding this.
